QUARTERLY PORK REVIEW

VOLUME 2, ISSUE 1

DECEMBER 2010

WELCOME to the final the issue of the *Quarterly Pork Review* for 2010! Once again we extend our thanks to all participants from the pork industry for their continued support and cooperation – especially the producers who provide data for the quarterly *Hogs and Pigs* surveys. Without their commitment and participation, this report would not be available.

This publication is a compilation of related reports issued by USDA's National Agricultural Statistics Service (NASS) in an effort to provide a complete source of statistics relevant to the pork industry.

Though many of the statistics in this publication can be accessed through our website on a monthly basis (www.nass.usda.gov/Publications), this Oklahoma Field Office summary will be issued each quarter following the release of the USDA-NASS *Quarterly Hogs and Pigs* report.

Please feel free to contact our office with any comments or questions you may have. I hope you find this information useful!

Wilbert C. Hundl, Jr.
 Director,
 Oklahoma Field Office

OKLAHOMA AND U.S. INVENTORY

Oklahoma's September - November 2010 pig crop at 1.80 million head was up 2 percent from last year. Sows farrowed, at 185,000, were down 3 percent from the previous quarter. **Oklahoma's Hog Inventory** estimated at 2.33 million head, was up 2 percent from last year, but down 2 percent from last quarter.

Farrowings: Number of Sows, Pig Crop, and Pigs per Litter, Oklahoma and United States, 2009–2011¹

Date	Sows Farrowing			Pigs per Litter		Pig Crop	
	2009	2010	2011 ²	2009	2010	2009	2010
	1,000 Head			Number		1,000 Head	
Oklahoma

PRODUCTION AND PRICE OUTLOOK

Higher pork prices seem to contribute to lower pork demand. Slightly lower pork prices are forecasted during the fourth quarter of 2010 and all of 2011, as the forecasted production shows an increase during the same period when compared to last year. USDA's October 31st Cold Storage Report showed pork products accumulating faster than expected, which is a contributor to the high fourth quarter pork production.
